English

Arabic

PROFILE

Experienced Web Developer adept in all stages of advanced web development. Knowledgeable in user interface, testing, and debugging processes. Bringing forth expertise in design, installation, testing and maintenance of web systems. Equipped with a diverse and promising skill-set. Proficient in an assortment of technologies, including Laravel, Codeigniter, MySQL, JQuery, Angular, and Apache Server. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

WORK EXPERIENCE

Relational Database Lecturer

Lincoln College of Science Management and Technology

2022 - Till now

- As a dedicated Lecturer in Computer Software Engineering, I bring a wealth of expertise and passion to the classroom. With a profound understanding of programming languages, including JavaScript, PHP, and SQL, I have the privilege of imparting practical knowledge to students. My commitment to cultivating a dynamic learning environment involves not only delivering lectures but also engaging students in hands-on coding exercises and projects. I guide them through the intricacies of frontend technologies such as HTML5, CSS3, jQuery, and Ajax, as well as backend frameworks like Laravel and CodeIgniter. I also emphasize the importance of database management, equipping students with proficiency in MySQL. Through my engaging teaching methods and collaborative approach, I aim to nurture the next generation of skilled and innovative developers who are well-equipped to excel in the ever-evolving world of technology.

Web Developer and Instructor

iSAY Technology

2020-2022

- As an enthusiastic Instructor, I have leveraged my extensive experience in web development to inspire and educate aspiring programmers. With a focus on fostering a dynamic learning environment, I've designed and delivered comprehensive courses that cover essential programming languages, tools, and methodologies. My teaching style is characterized by hands-on instruction, enabling students to grasp complex concepts and apply them in practical scenarios. Through my role, I've mentored numerous individuals, nurturing their growth from beginners to proficient developers. I thrive on providing clear explanations, offering personalized guidance, and facilitating engaging discussions to ensure that each student achieves a solid understanding of web development principles. My commitment to education is driven by a passion for empowering others with the skills to succeed in the dynamic field of technology.

WORK EXPERIENCE

Developer

Target Web Consultant

2019-2020

- As a skilled and innovative Full-Stack Developer, I possess a deep passion for creating dynamic and interactive web solutions. With expertise in languages such as JavaScript, PHP, and SQL, I have successfully developed and maintained a range of websites and web applications. My proficiency extends to frontend technologies like HTML5, CSS3, jQuery, and Ajax, as well as backend frameworks including Laravel and CodeIgniter. My ability to design responsive and user-friendly interfaces is complemented by my expertise in database management, including MySQL. I am committed to delivering high-quality projects that exceed expectations, collaborating effectively within cross-functional teams to meet project goals. My dedication to continuous learning ensures that I remain up-to-date with emerging industry trends and best practices.

Internship

Anther Technology

2019

- The internship not only honed my technical skills but also nurtured my teamwork, communication, and problem-solving abilities. I am excited to apply the knowledge I acquired and the connections I made to my future endeavors in software development and deployment. This internship has been a pivotal stepping stone in my journey to becoming a well-rounded and capable professional.
